ENGRAVING INSTRUCTIONS

Three lines of text with 14 characters is recommended. We will try and fit as much on as we can, though the more text you have the more it will be distorted to fit. Spaces and standard-sized punctuation count as one character, e.g. !?#&/ — however smaller punctuation such as ' can fit into any other character. These are the most common symbols requested, but we can do others as long as the design is simple.

OUR FRONT GARDEN

Southside's front garden is set to undergo a remarkable transformation in celebration of its 100th anniversary. Local landscape architect

and former Southside parent, Michael Gilkey, has generously volunteered his time and design expertise to reimagine the space, creating an inviting area where families can gather and connect. Michael and his team at Michael A. Gilkey, Inc., alongside local landscaping companies and community friends, are coming together to turn this inspiring vision into a beautiful reality.
